

## **EMPLOYMENT OPPORTUNITY**

### **Water Treatment Plant Foreman**

With a population of approximately 15 800, Cold Lake is a city that offers a wealth of excitement, adventure and entertainment for all in any season. Hugging the southern shores of Alberta's seventh largest lake, this recreational paradise can be accessed in summer and winter through western Canada's largest inland marina. New housing, excellent educational facilities, a multipurpose recreational facility and a college are just a few of the highlights that truly make Cold Lake a community of choice. To our employees, we offer a fulfilling and challenging career with stable, year-round employment, and an emphasis on a healthy work-life balance.

The City of Cold Lake is currently seeking a qualified individual to fill the permanent, full-time position of Water Treatment Plant Foreman with the Infrastructure Department.

Reporting to the Environmental Services Manager, the Water Treatment Plant Foreman is responsible for leading and supervising the Water and Wastewater Treatment group for the City; overseeing the safe, efficient, effective delivery of the Water and Wastewater Treatment Program. This role assumes the regulatory role and all responsibilities according to the Alberta Environment Act and other Acts and regulations. This position oversees daily operations, including field samples, lab testing, organizing data and record management, as well as maintenance and repair of the water and wastewater systems, pump houses, lift stations, and treatment facilities. The Water Treatment Plant Foreman liaises with contractors, outside regulatory water agencies, and health and safety agencies. This position also assists the Environmental Services Manager with staffing and staff training.

The qualifications for this position include a High School diploma, Alberta Environment Certifications in Level II Water Treatment, Level III Water Distribution, Level II Wastewater Collection, and Level I Wastewater Treatment. A current Class 3 Operator's license with Q endorsement is preferred. Standard First Aid, CPR, Confined Space Entry, and H2S, certifications are required. The incumbent must have the ability to wear SCBA and lift 25 kilograms on a daily basis. The position also requires that the incumbent is well versed with SCADA system operations. The Water Treatment Plant Foreman will have strong computer knowledge, as well as strong time management, communication and organizational skills. This position calls for an experienced leader with knowledge of applicable maintenance and management theories, practices and trends in an operations environment, for the environment and Water/Wastewater-related programs. Preference will be given to applicants who have minimum 5-8 years' experience directly related to the operation and maintenance of a Water Treatment Plant facility.

The City of Cold Lake provides a competitive compensation package to successful candidates, including an exceptional benefits plan, pension plan, and a variety of developmental opportunities.

Interested candidates, please submit a detailed resume including qualifications and past and present work experience. Please include a cover letter describing your experience and abilities with respect to the above listed qualifications, and copies of any relevant certifications. The City of Cold Lake appreciates receiving applications from all qualified individuals; however only those short-listed for an interview will be contacted. This competition will remain open until August 2, 2020.
