

## **JOB POSTING - GENERAL MANAGER, UTILITY OPERATIONS WESTERN CANADA**

Inspired by our **Purpose** — "We help people enjoy a better life and communities thrive." — Corix is a community-focused provider of essential utility services that ensure the long-term viability of the communities and customers we serve.

We differentiate ourselves from traditional utility service providers through our broad expertise in water, wastewater, and energy utilities, and our ability to leverage that expertise to structure tailored solutions for our customers. Corix delivers utility infrastructure solutions to communities in 20 states and three provinces, serving over a million customers.

We have a fantastic opportunity for a seasoned leader to join our team as **General Manager, Utility Operations, Western Canada**, based in Calgary, Alberta.

### **About the opportunity**

The General Manager, Utility Operations is a key member of the Western Canadian leadership team and is responsible for enabling the Water and Wastewater utilities to deliver on strategic plan priorities and guiding principles. The GM will oversee the management of resources (capital, people, equipment, space) required to operate an efficient and successful Utility business.

### **Responsibilities**

- Reinforce personal, team and organizational commitment to our safety obligations and due diligence as a leader within the organization
- Work with the President, Utilities Canada to implement strategies and actions emphasizing growth of the business through broadening our services to existing and new clients plus integration of growth/service strategies across Corix.
- Participate in the development of strategic, business, communications, workforce recruitment, quality control (risk management), personnel training, safety and marketing plans and will be the lead person on several assigned planning tasks.
- Empower the team to take an active role in the activities that support the business unit strategy and success
- Work with Finance to facilitate timely reporting of financial related information and to monitor performance of profit center operations to business plans and budgets.
- Actively participate in all utility rate filings as required
- Plan and direct the operational group's activities to achieve targets and standards for financial performance, quality, culture and regulatory adherence.
- Expect to learn/know and understand all federal and provincial regulatory requirements for the Water and Wastewater industry
- Accountable for creating a culture within the business unit that promotes the operation's ability to attract, retain and develop high quality talent.
- Prepare a succession plan for key positions within the operations group
- Establish and maintain appropriate systems for measuring necessary aspects of operational compliance and management (KPI's)
- Represent the division with major clients, shareholders and the public

**Who you are**

You are a strong leader with proven business acumen who has spent the past 10 to 15 years progressing your career and gaining relevant experience in the utility industry. You also have a relevant Bachelor's degree in a related field and/or applicable certification.

You must have a valid driver's license and clean driver's abstract and the ability to travel throughout Western Canada. You also need to be eligible to obtain a valid passport as there may be travel to the U.S. in the future, depending on the status of the COVID-19 pandemic. Some Corix office locations are currently closed and our employees are working from home. You should be comfortable with navigating technology in order to effectively participate in project and team meetings.
