KANA ENVIRONMENTAL CONSULTING WATER DISTRIBUTION OPERATORS LEVEL I & II

KANA ENVIRONMENTAL CONSULTING is a privately owned and operated company specializing in operations of Alberta Environment licensed facilities.

KANA ENVIRONMENTAL CONSULTING recognizes the value of our employees and offers flexible shift schedules for their employees..

This position is available due to the expansion of a present long-term operations contract. The positions of Level I & II operators will entail work in the areas of Water Distribution, and possibly Water Treatment, Wastewater Treatment and Collection in the future.

The operator will not be required to relocate away from Edmonton or the surrounding area as the operations are based around the City Of Edmonton.

Experience with SCADA systems, First Call Locating, Water Distribution Systems and Singer PRV and PSV valves as well as online instrumentation are valuable assets for this position.

Remuneration for the successful candidate will be dependent upon experience. Water or Wastewater Treatment experience is preferred and a valid class 5 Alberta drivers license is required. A company work truck is provided for this position.

Upon successful completion of a probationary period the successful candidate will have extended health care benefits paid as part of their remuneration package.

Resumes should be sent to the attention of KEN BUHAGIAR.

If you prefer e-mail please use the following address: [**kanaenv@gmail.com**](mailto:kanaenv@gmail.com)

If you choose to fax your resume please fax it to **(780) 410-0572**

KANA ENVIRONMENTAL CONSULTING will contact only those to be interviewed immediately as operators are required.
