

## **Company: Corix Utilities Inc.**

### **Who We Are**

Corix designs, supplies, builds, installs, finances, and operates local utility infrastructure on behalf of municipal, institutional, military, and private-sector customers. Inspired by our vision to build a world of sustainable communities, Corix is recognized as a community-focused provider of the essential utility services necessary to ensure the long-term viability of the communities and customers we serve. We differentiate ourselves from traditional utility service providers through our broad expertise in water, wastewater, and energy utilities and our ability to leverage that scope of expertise to structure tailored solutions that meet the requirements of small and medium-sized communities.

### **About the Opportunity**

We are looking for a Utility Operator Level 1 based in Lac La Biche. Reporting to the Operations Manager, the successful candidate will operate water analysis and treatment equipment to ensure water treatment, distribution, and/or wastewater treatment is performed as per regulatory, environmental and safety standards.

### **What You'll Do**

- Control flow and processing of water/wastewater, residuals, and finished water/effluent, operating valves and gates either manually or by remote control
- Monitor gauges, meters and control panels and observes variations in operating conditions
- Collect samples and performs routine laboratory tests and analyses, interpreting test results to determine processing requirements
- Ensures plant records are accurate and up to date
- Start and stop pumps, engines and generators to control and adjust flow and treatment processes
- Perform daily, weekly, monthly and quarterly sampling of all aspects of the wastewater utility systems to ensure compliance with regulatory requirements.
- Operate, inspect and service equipment in water and wastewater, including hydraulics, pumps, valves etc.
- Perform related security, safety and administrative procedures involving chemical hazards, personal protective equipment, general health and safety procedures, and emergency preparedness
- Maintain emergency preparedness binders and field operating manuals
- Undertake routine repairs to water distribution and wastewater treatment and collection systems
- Maintain shift logs, recoding meter and gauge readings
- Perform other related duties as required

### **Who You Are**

- You are a certified level I Wastewater Treatment Operator
- You have your high school diploma
- You have 1-3 years of experience in a water/wastewater treatment operator role or equivalent
- You have a valid driver's license; must be able to provide driver's abstract

**How to apply**

If you possess these skills and qualifications, we invite you to apply online in confidence at [www.corix.com](http://www.corix.com).

We thank all candidates for their interest; however, only those shortlisted will be contacted.

**No telephone calls or recruitment agencies will be accepted.**

Corix is committed to providing an inclusive and accessible candidate experience. Accommodations are available upon request.
